LIMITED REVIEW REPORT

August 13, 2015

To the Unit Holders of BMK IPO Fund:

Scope of review

We have reviewed the accompanying interim balance sheet of BMK IPO Fund (the "Fund") as of June 30, 2015 and the interim statements of operations, cash flows and changes in net assets for the six-month period then ended, and the related notes which form an integral part of these interim financial statements. These interim financial statements are the responsibility of the Fund's management and have been prepared by them and submitted to us together with all the information and explanations which we required.

We conducted our limited review in accordance with the standard of Review of Interim Financial Reporting issued by the Saudi Organization for Certified Public Accountants. A limited review consists principally of applying analytical procedures to financial data and information and making inquiries of persons responsible for financial and accounting matters. The scope of such limited review is substantially less than an audit conducted in accordance with auditing standards generally accepted in Saudi Arabia, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Review conclusion

Based on our limited review, we are not aware of any material modifications that should be made to the accompanying interim financial statements for them to be in conformity with accounting standards generally accepted in Saudi Arabia.

BMK IPO FUND

Notes to the interim financial statements for the six-month period ended June 30, 2015

(All amounts in Saudi Riyals unless otherwise stated)

1 General information

BMK IPO Fund (the "Fund") is an open-ended investment fund established under an agreement between Bait Al Mal Al Khaleeji Company (the "Manager") and investors in the Fund ("Unit Holders"). The Fund is governed by the terms and conditions of its prospectus and aims at capital growth mainly through investments in the equity securities of the Saudi companies during the period of initial public offering, and priority rights of newly listed companies which are below three years of listing in the Saudi stock exchange "Tadawul". The Fund does not distribute dividends to unit holders. The Fund's net income is to be reinvested in the Fund, which affects the value and price per unit. The registered address of the Manager is Bait Al Mal Al Khaleeji Company, P.O. Box 9177, Dammam 31413, Kingdom of Saudi Arabia.

In dealing with the Unit Holders, the Manager considers the Fund as an independent unit. Accordingly, the Manager prepares separate financial statements for the Fund. The Fund's books and records are also administered by the Manager. Furthermore, the Unit Holders are considered owners of the assets of the Fund and any income distribution is made in relation to their respective ownership share to the total number of units.

The Saudi Capital Market Authority ("CMA") approval for the Fund was obtained on 17 Dhul Qa'dah 1435 H (September 11, 2014). The Fund commenced its operations on November 10, 2014.

The accompanying interim financial statements were approved by the Fund's Manager on August 13, 2015.

2 Regulating authority

The Fund is governed by the Investment Fund Regulations published by CMA detailing requirements for all funds within the Kingdom of Saudi Arabia.

3 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these interim financial statements are set out below. These policies have been consistently applied to all periods presented.

3.1 Basis of preparation

The accompanying interim financial statements have been prepared under the historical cost convention on the accrual basis of accounting, except for the measurement of held-for-trading investments at fair value, and in compliance with the Standard of Review of Interim Financial Reporting issued by the Saudi Organization for Certified Public Accountants. Significant accounting policies adopted by the Fund for preparing such interim financial statements are consistent with the accounting policies described in the 2014 audited financial statements of the Fund.

The accompanying interim financial statements include all adjustments comprising mainly of normal recurring accruals considered necessary by the Fund's management to present a fair statement of the financial position, results of operations and cash flows. The interim results of the operations for the six-month period ended June 30, 2015 may not represent a proper indication for the annual results of operations. These interim financial statements and notes should be read in conjunction with the audited financial statements and the related notes for the period ended December 31, 2014.

3.2 Critical accounting estimates and judgments

The preparation of interim financial statements in conformity with generally accepted accounting standards requires the use of certain critical estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the reporting date and the reported amounts of revenues and expenses during the reporting period. Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The Fund makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results.

3.3 Foreign currency translations

(a) Reporting currency

These interim financial statements are presented in Saudi Riyals which is the reporting currency of the Fund.

BMK IPO FUND

Notes to the Interim financial statements for the six-month period ended June 30, 2015

(All amounts in Saudi Riyals unless otherwise stated)

(b) Transactions and balances

Foreign currency transactions are translated into Saudi Riyals using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at the period-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in the statement of operations. The amounts of foreign exchange gains and losses were not significant for the six-month period ended June 30, 2015.

3.4 Cash and cash equivalents

Cash and cash equivalents include cash at bank, and other short-term highly liquid investments, if any, with maturities of three months or less from the purchase date.

3.5 Held-for-trading investments

Held-for-trading investments are initially recognized at cost. After initial recognition, investments in equities are valued at fair value at the balance sheet date. Changes in fair values, comprising of realized and unrealized gains and losses, are included in the statement of operations. Investments in mutual funds, if any, are valued at the net assets value of the units in issue at the balance sheet date.

3.6 Liabilities

Liabilities are recognized for amounts to be paid for goods and services received, whether or not billed to the Fund.

3.7 Revenues

Dividend income is recognized when the Fund's right to receive payment is established. Realized gains and losses on investments sold are determined based on the weighted average cost basis. Results arising from trading activities include all gains and losses from changes in fair value of held-for-trading investments.

3.8 Expenses

Expenses are calculated and recognized as a period costs in the period in which incurred.

3.9 Zakat and income tax

Under certain provisions of the Saudi income tax law, the income and gains of investment funds are subject to income tax at the applicable rates. The provisions of the Saudi income tax law relating to investment funds law have not been enforced pending clarifications from the Department of Zakat and Income Tax ("DZIT") and the CMA. No provision has been made in the accompanying interim financial statements as zakat or income tax, if any, determined upon eventual implementation of the above mentioned provision in the law will be the obligation of the unit holders.

3.10 Trade date accounting

All purchases and sales of investments are recognized on the trade date, which is the date the Fund commits to purchase or sell the asset.

4 Held-for-trading investments

All of the Fund's investments are in Saudi publicly listed companies on the Saudi stock market. The composition of the investment portfolio by economic sector at June 30, 2015 is summarized below:
